

Hepatobiliary Scan

NUCLEAR MEDICINE

Hepatobiliary or gallbladder scans are used to evaluate upper abdominal pain, determine causes of jaundice, and identify obstruction in the gallbladder. This exam can take up to 2 ½ hours.

How you should prepare

- It is recommended that you schedule this exam in the morning, due to diet restrictions.
- Do not eat or drink anything 6 hours prior to your exam.
- If you are taking any pain medications, discontinue for at least 6 hours prior to your exam.
- Wear comfortable clothes without metal fasteners, including zippers, buttons and snaps.
- Arrive 15 minutes early to complete registration.
- Bring with you:
 - Your appointment form
 - Your insurance card and a valid photo ID
- Please let us know about any of the following:
 - Pregnancy, known or possible
 - If you are a nursing mother
 - Allergies or sensitivities to any substances or drugs

What happens during the exam

An IV line will be started in a vein in your arm and you will receive an injection of a small amount of radioactive tracer. The tracer allows your gallbladder to be seen by the nuclear medicine camera.

You will lie on your back on a cushioned table with the camera over your gallbladder (abdomen) for the duration of the exam. A nuclear medicine technologist will be in the room with you for the entire exam.

The camera continuously images your gallbladder filling, for a period of 40-60 minutes. Once your gallbladder enlarges, you will receive an injection of CCK (cholecystokinin) through the IV line. CCK makes the gallbladder contract, enabling the camera to capture images showing gallbladder function. Images will be taken continuously for up to an additional hour.

After your exam

The IV in your arm will be removed. Unless directed otherwise, you may drive, resume your normal diet, exercise and take all prescribed medications. The tracer remains in your body for a short time and is cleared through natural bodily functions. Drinking plenty of fluids will help flush it through your body more quickly.

Your images will be interpreted by a board-certified radiologist (medical doctor) specializing in body imaging. The findings will be sent to your healthcare provider. Your healthcare provider will contact you to discuss the results.

Your scheduled appointment

Date: _____

Arrival Time: _____ Appointment Time: _____

Location:

Northwest scheduling: 763.792.1999

Southdale scheduling: 952.893.0000

Canceling exam requires 48 hour notice. Call scheduling number.

Hepatobiliary Scan

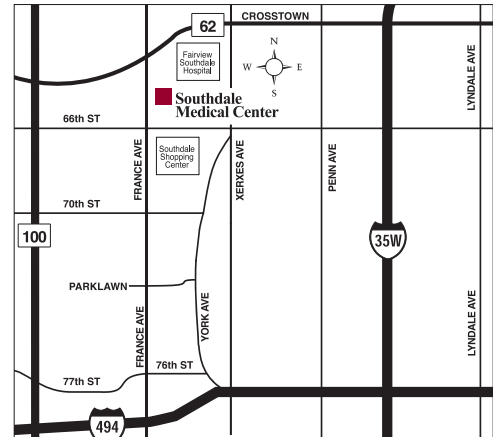

Suburban Imaging – Northwest

Mercy Specialty Center, Suite 180
11850 Blackfoot Street NW
Coon Rapids, MN 55433
main 763.795.1600

Suburban Imaging – Southdale

Southdale Medical Center, Suite 125
6545 France Avenue S
Edina, MN 55435
main 952.405.2777

From the North

Take Hwy 10 east and exit on Round Lake Blvd. Turn right on Round Lake Blvd, traveling southbound. Turn right onto 119th Ave NW (turns into Blackfoot Street NW). Turn right into the Mercy Specialty Center parking lot.

From the South

Take I-94 west and continue on Hwy 252 north. Follow Hwy 610 east and take the East River Road exit. Turn left on East River Road, which becomes Coon Rapids Blvd. Continue on Coon Rapids Blvd and turn right on Blackfoot Street NW. Turn left into the Mercy Specialty Center parking lot.

From the West

Take Hwy 169 north and exit onto Main Street (Anoka). Turn right onto 5th Ave S. Continue onto East River Road/Coon Rapids Blvd. Turn left on Blackfoot Street NW. Take the first left into the Mercy Specialty Center parking lot.

From the East

Take Hwy 10 east toward Anoka, exiting on Round Lake Blvd. Turn left on Round Lake Blvd, traveling southbound. Turn right onto 119th Ave NW (turns into Blackfoot Street NW). Turn right into the Mercy Specialty Center parking lot.

From the North

Go south on Hwy 100 and exit Hwy 62 (Crosstown) going east. Follow to France Ave exit and turn right. Turn left onto 65th St and take immediate right into Southdale Medical Center parking lot.

From the South

Go north on Hwy 100 and exit Hwy 62 (Crosstown) going east. Follow to France Ave exit and turn right. Turn left onto 65th St and take immediate right into Southdale Medical Center parking lot.

From the West

Go west on Hwy 62 (Crosstown). Follow to France Ave exit and turn right. Turn left onto 65th St and take immediate right into Southdale Medical Center parking lot.

From the East

Go east on Hwy 62 (Crosstown). Follow to France Ave exit and turn left. Turn left onto 65th St and take immediate right into Southdale Medical Center parking lot.
